Core Competencies: Responsive Web Design, UI/UX Design, Cross-Browser Compatibility, Performance Optimization, Database Architecture, Full-Cycle Web Development, Agile Collaboration

PROFESSIONAL EXPERIENCE

VenPep Solutions Pvt. Ltd. – Web Developer

July 2022 – Present

Coimbatore, Tamil Nadu, India

- Designed and developed 15+ responsive, user-friendly websites using HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, and jQuery, improving client engagement and usability.
- Built and maintained dynamic web applications using PHP CodeIgniter framework, including business management systems for stock, billing, purchase, and HR modules.
- Customized and deployed WordPress websites using the Elementor Page Builder, reducing turnaround time for client site launches.
- Implemented mobile-first design principles and optimized front-end assets, improving page load speed and cross-browser compatibility.
- Collaborated with designers, back-end developers, and clients across cross-functional teams to translate business requirements into high-quality UI/UX solutions.
- Adopted AI-assisted development tools (ChatGPT, Claude) to accelerate debugging, rapid prototyping, and code optimization workflows.

Adiv Technologies – Web Designer

September 2021 – May 2022

Adaikalapuram, Tamil Nadu, India

- Developed responsive websites using HTML, CSS, Tailwind CSS, and JavaScript, and contributed to front-end modules built with Angular and React.
- Customized and maintained WordPress websites, ensuring alignment with modern design trends and web accessibility standards.
- Designed interactive user interfaces and translated client requirements into functional, responsive layouts.
- Improved visual consistency and usability across devices while maintaining web compliance and design standards.
